Estimated Market Value	is \$182,000	, as of <u>2/24/10</u>	, which is the effective	date of this desktop analysis.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and acting in what they consider their own best interests; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concession granted by anyone associated with the sale.

### STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in this limited residential appraisal and summary report is subject to the following conditions:

- 1. This assignment is conditioned upon the availability of adequate information regarding the subject property market data for a 3 year period, and comparable market data for a 12 month period, preceding the date of this valuation.
- 2. This limited appraisal invokes the Departure Provision of the Uniform Standards of Professional Appraisal Practice Standards Rule 1-4. In this report, any reference to the term "report" means: limited residential appraisal and summary report.

- 3. The zoning for the subject property is residential. The subject property is assumed to be a single family dwelling in compliance with this current zoning. The use of the real estate is assumed to be residential and this is the use that is appraised in this report.
- 4. The reliability of this valuation is considered to be impacted to a certain extent by the appraiser's lack of inspection of the subject property and the comparable sales.
- 5. The HIGHEST AND BEST USE as improved is assumed to be the present use and is the reasonably probable and legal use that is physically possible, appropriately supported, financially feasible, and results in the highest value. This assumption is an extraordinary assumption, which if found to be false, could significantly alter the value opinion expressed in this report.
- 6. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of its being under responsible ownership.
- 7. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- 8. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more of less valuable. The appraiser has assumed that there are no such conditions and makes no guarantees or warranties, expressed or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this report must not be considered an environmental assessment of the property. If the subject property was built prior to 1978, the dwelling may contain lead-based paint.
- 9. Information regarding the subject's physical characteristics was obtained either from information supplied on the appraisal request or from third party sources that the appraiser considers to be reliable and believes the data to be true and correct. The appraiser does not assume responsibility for the accuracy of such data that were furnished by other parties.
- 10. The appraiser will not disclose the contents of this report except as provided for in the Uniform Standards of Professional Appraisal Practice.
- 11. The appraiser must provide his or her written consent before the lender/client specified in this report can distribute this report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower, the mortgage or its successor and assigns, the mortgage insurer, consultants, professional appraisal organization, any state or federally approved financial institution, any department, agency, or instrumentality of the United States, or any state or the District of Columbia, except that the lender/client may distribute the property description section of this report only to data collection or reporting service(s)) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the report can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

### APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

APPRAISER:

- 1. I have researched the subject market area and have selected a minimum of three recent sales of properties most similar and proximate to the subject property for consideration in the sales comparison analysis. Differences in the subject and comparables were analyzed to arrive at the value conclusion in this report. Utilizing the Sales Comparison Approach, I placed most emphasis on the comparable(s) considered to be most similar to the subject.
- 2. I have taken into consideration the factors that I am aware of that have an impact on value in my development of the value conclusion presented in this report. I have not knowingly withheld any significant information from this report and I believe, to the best of my knowledge, that all statements and information in this report are true and correct.
- 3. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.

  4. I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved. I have no bias
- 4. I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved. I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- 5. My engagement in this assignment was not contingent upon developing or reporting predetermined results. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 6. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.
- 7. I have not made a personal inspection of the property that is the subject of this report.
- 8. In this assignment the appraiser has relied exclusively on the Sales Comparison Approach. Based on prior agreement with the client, an inspection of the subject property, the Cost Approach and Income Approach were excluded from this report. I have considered these exclusions and determined that the exclusion of an inspection, the Cost Approach and the Income Approach would not result in a report that is misleading to the client.
- 9. Although I have not personally inspected the subject property and the properties utilized as comparables in this report, I certify that I have no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions within the immediate vicinity of the subject property.
- 10. I personally prepared all conclusions and opinions about the real estate that were set forth in this report. If I relied on significant professional assistance from any individual or individuals in the performance of this report or the preparation of this report, I have named such individual(s) and disclosed the specific tasks performed by them in the general comment section of this report.

### Supplemental Addendum

	Supplemental Addendum			File No. 10020159			
Borrower/Client	N/A						
Property Address	7502 E Earll Dr Unit 3						
City	Scottsdale	County Maricopa	State AZ	Zip Code 85251-6920			
Lender	Dustin Johnson						

### **Desktop Limited: Conditions of Appraisal**

There are no conditions to this appraisal. The signatures in this report are digital signatures created by scanning the original signature of the appraiser. Digital signatures are used by Sun Point Appraisals, Inc. in order to expedite our services.

### **Desktop Limited: Intended Use and Users**

The Intended User of this appraisal report is the Client (Wendy White and her client). The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser and use of this report by others is NOT intended by the appraiser.

### **Desktop Limited: Scope of Work**

The Scope of Work is part of the appraisal process and is a preliminary decision made by the appraiser in communication with the Client in terms of how the appraisal should be conducted. It requires, in part, identification of intended users and the function of the appraisal (how it is to be used) so that sufficient analysis, methodology and communication can be made to those who rely on the appraisal to make necessary decisions. USPAP defines Intended User as "the client and any other party as identified, by name or by type, as users of the appraisal, appraisal review, or appraisal consulting report by the appraiser on the basis of communication with the client at the time of the assignment". Although there are those that may choose to rely on the appraisal report, they are NOT identified as Intended Users of this appraisal report. Included in the Scope of Work decision and communication is the need of sufficient information gathered and analyzed to develop and report a credible opinion of value.

A preliminary search of available resources and data was made to determine market trends, influences, location and other significant factors pertinent to the subject property. Extent of research into physical, functional and economic factors that could effect the property include, but are not limited to, flood maps, plat maps, zoning, Marshall & Swift Residential Cost Handbook. The appraisers conclusions reported herein are based on data gathered, analyzed and that considered reasonably available. All sales data obtained are from sources believed to be reliable (i.e., Multiple Listing Services, the appraiser's work file, realtors, assessor's offices, etc). Sales are verified with at least two sources, i.e., Multiple Listing Services and County tax records in accordance with the definition of Market Value found on the Fannie Mae Form 1004 contained herein.

The subject's history was researched for the past three years from the effective date of this appraisal and findings are reported. The type and extent of analysis applied to arrive at opinions or conclusions include the Sales Comparison Approach and highest and best use with each being addressed, determining the cost approach and income approach were not applicable in the final reconciliation of this evaluation.

REAL PROPERTY INTEREST APPRAISED: The interest of the appraised real property is that of a Fee SImple absolute interest, a Hypothetical Condition. The actual interest "absolute" rights of use are restricted due to legal limitations of the zoning and deed covenants. The "absolute" Fee Simple interest does not appear to negatively affect the marketability or value of the subject as it is similar to ownership of surrounding residential properties in the market area.

PERSONAL PROPERTY INTEREST APPRAISED: No personal property interest was considered as part of the final value conclusions stated herein. This Summary Appraisal Report considered Real Property only.

### **Desktop Limited: Market Conditions**

Financing is readily available from a variety of sources at good rates. Sellers are not required to offer sales or financing concessions. Supply and demand appear to be balanced. General market conditions are stable at this time with typical financing involving sellers paying not more than 2 discount points. Exposure time is good at 3-6 months and prices are stable based on the comparable sales analyzed. The marketing time for the subject property is the same as the neighborhood 3-6 months.

### **Destktop Limite: Neighborhood Description**

, which allows access to downtown Phoenix as well as surrounding The subject neighborhood is border by Freeway suburbs for increased recreation, shopping, and employment opportunities. All essential services are provided within an hour travel time. No adverse factors affecting marketability are apparent. Information provided within this report pertaining to the makeup of the subject defined neighborhood was provided by the 2000 US Census demographics, MLS Data and appraiser observation.

### Desktop Limited: Sales Comparison Approach Comments

The adjustments made to the comparables are based upon the contribution of each item to market value. The adjustments are NOT based upon the original or replacement costs of the items. The amounts of adjustments were obtained through "Paired Sales Analysis" and "Market Extraction", whenever possible. NMD (No Market Difference) is used when adjustments could not

Lender Dustin Johnson			

be supported with market data, or when the market does not appear to recognize a value difference for the item.

The appraiser's opinion of value of the subject property is within the predominant value for the subject's market area.

### **Desktop Limited: Additional Comments**

The appraiser is not a home inspector and this report does not constitute in any way a home inspection.

No inspection of the subject was made for the purpose of this assignment. The appraiser is taking an extraordinary assumption on the condition of the home that the home is in average condition.

SOURCE FOR DEFINITION OF MARKET VALUE: The source of the definition of market value is obtained in Section 205 of FNMA Guidelines.

EXTRAORDINARY ASSUMPTIONS: This appraisal is subject to the following conditions and/or assumptions (others may be included in this report). This information is provided in an effort to provide full disclosure of the conditions under which this appraisal was completed.

Extraordinary Assumption is defined by USAP as "an assumption, directly related to a specific assignment, which, if found to be false, could alter the appraiser's opinions or conclusions".

The standard scope of appraisal practice does not require the appraiser to investigate the legality of the construction of the original subject structures. The appraiser did not investigate the legality of the original construction of the improvements and presumes the original structure was built with any and all required building permits. This appraiser utilizes an Extraordinary Assumption that existing improvements had appropriate building permits obtained. The appraiser noticed no posting of code violations at the subject property nor was the appraiser informed by any third party of such violations.

LIENS OR ENCUMBRANCES: Any liens or encumbrances which may exist, on the effective d ate of the appraisal, has been disregarded and the property has been appraised as if free and clear unless otherwise specified in this appraisal report.

### • Desktop Valuation Limited Appraisal/Summary Report : Sales History Comments

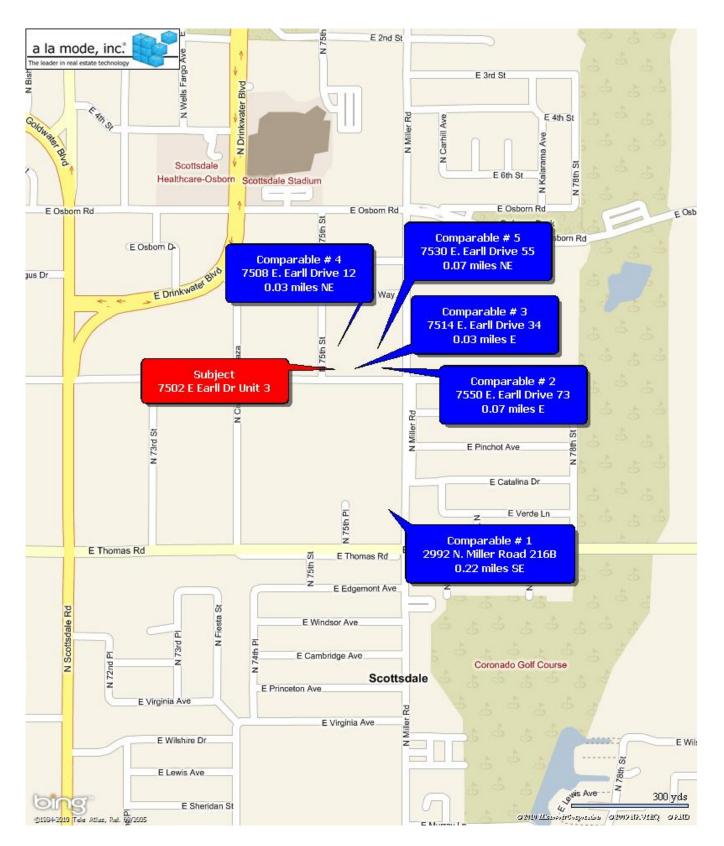

The adjustments made to the comparables are based upon the contribution of each item to market value. The adjustments are NOT based upon the original or replacement costs of the items. The amounts of adjustments were obtained through "Paired Sales Analysis" and "Market Extraction", whenever possible. NMD (No Market Difference) is used when adjustments could not be supported with market data, or when the market does not appear to recognize a value difference for the item.

### • Desktop Valuation Limited Appraisal/Summary Report : Relative Comparison Analysis

Sale 1 was a larger home with a superior floorplan and 2 car garage. Sale 2 was similar to our subject however was on the market for an extended period. Sale 3 was similar however was a lender/bank owned property. Comparable 4 and 5 were added for additional support as they were actives within the same complex as our subject. Due to declining market conditions Sales 2 and 3 were in need of a time adjustment as they were dated sales. Although dated Sales 2 and 3 were utilized due to a lack of comparable data as well as their similar location within the subject complex.
